Survey overview: October 17-20

- ▶ Citizen Data surveyed n=1,000 likely voters in 7 key states between October 17-20 via IVR/P2P on their voting experience thus far and intentions through November 3. GA, FL, NC, TX, PA, MI, OH
- ▶ This survey data has been matched to Citizen's voter file of all registered voters, weighted, and balanced to represent the partisanship and demographics of each state.

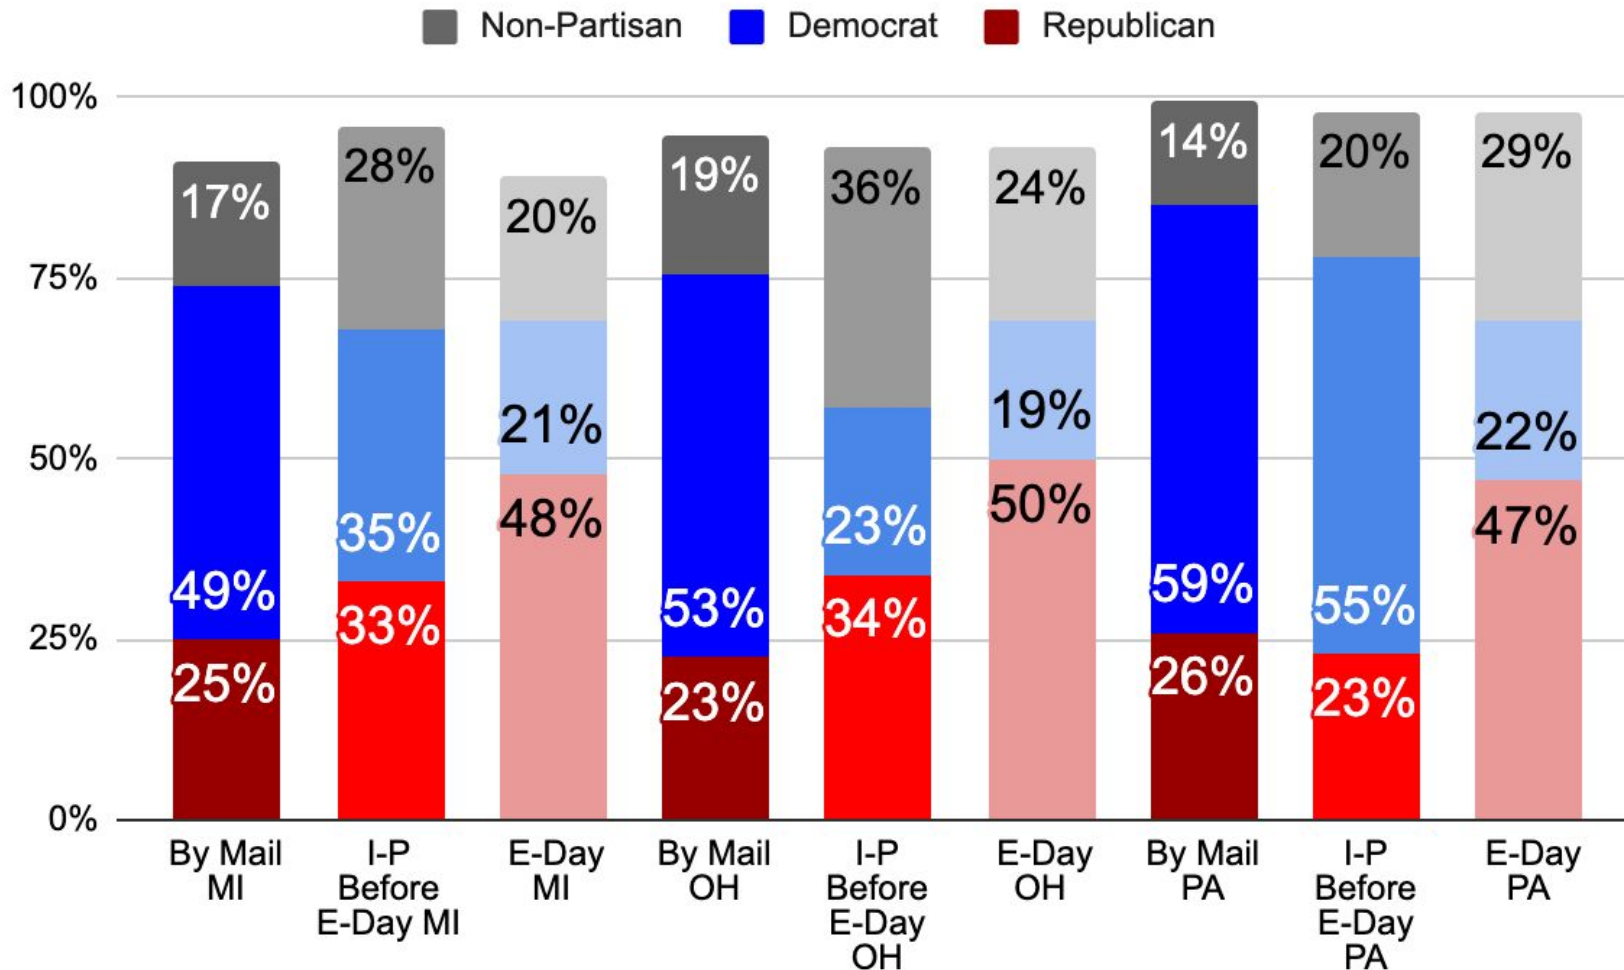

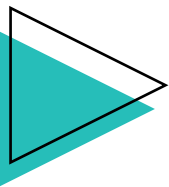

Republicans are more likely to vote in-person on Election Day, while Southern Democrats make up half of mail voters.

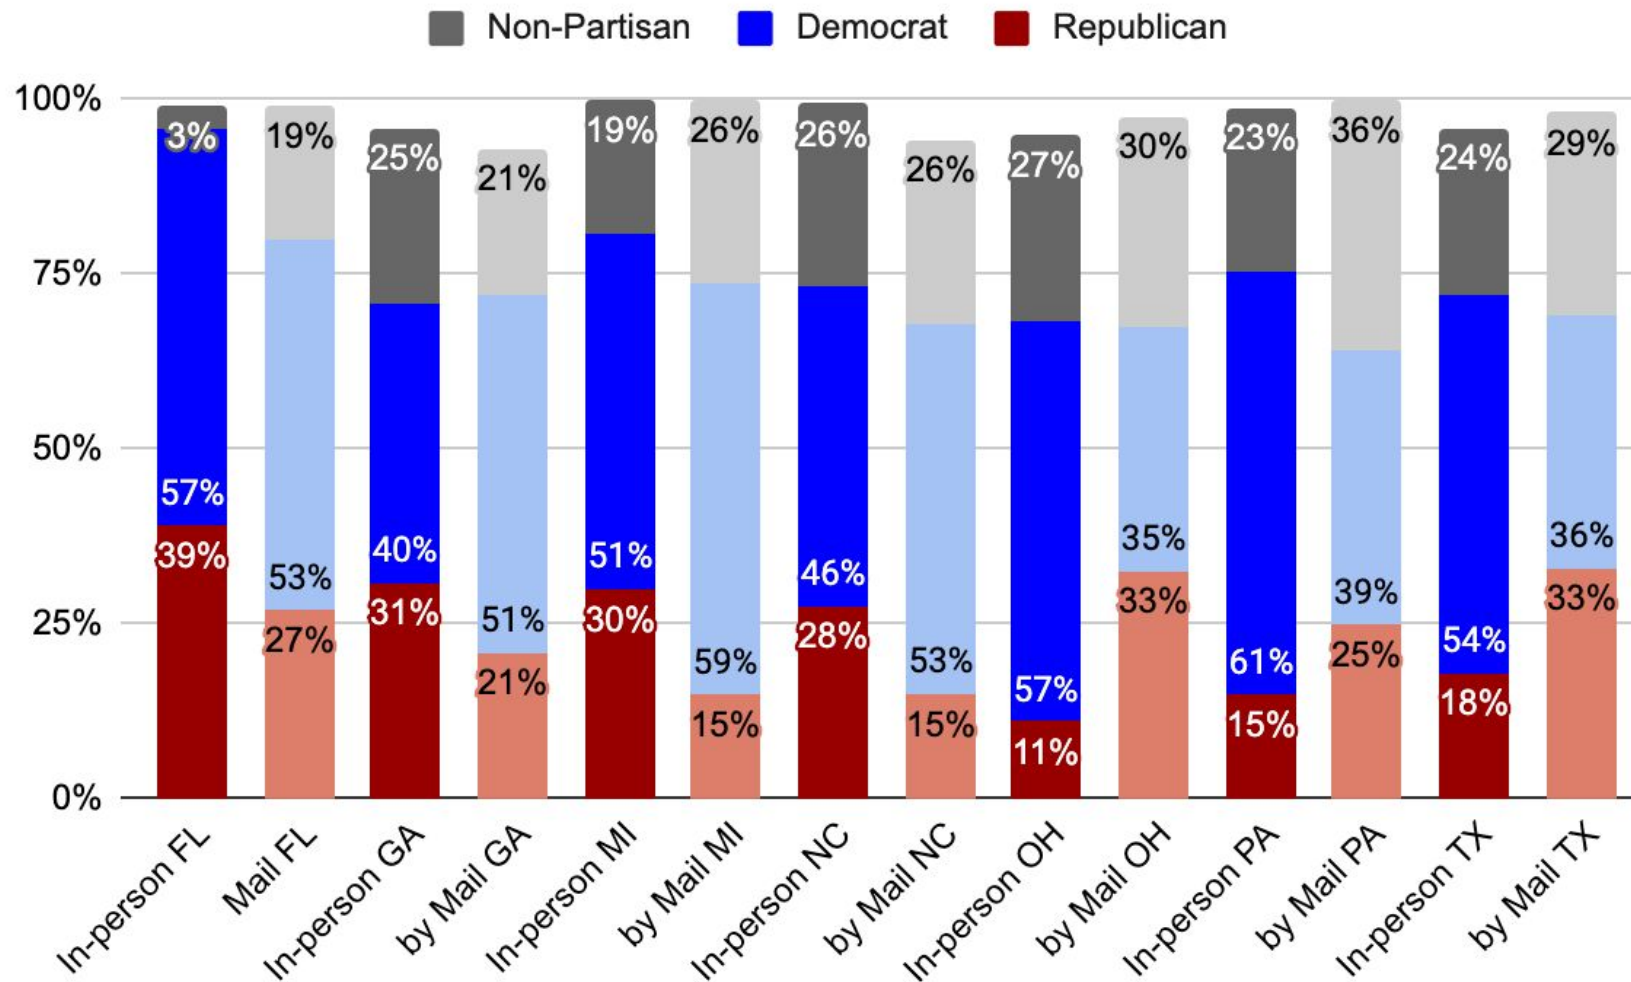

Rust belt Democrats are more likely to vote on Election Day but still comprise only a 1% of Election Day voters,
compared to Republicans making up nearly half.

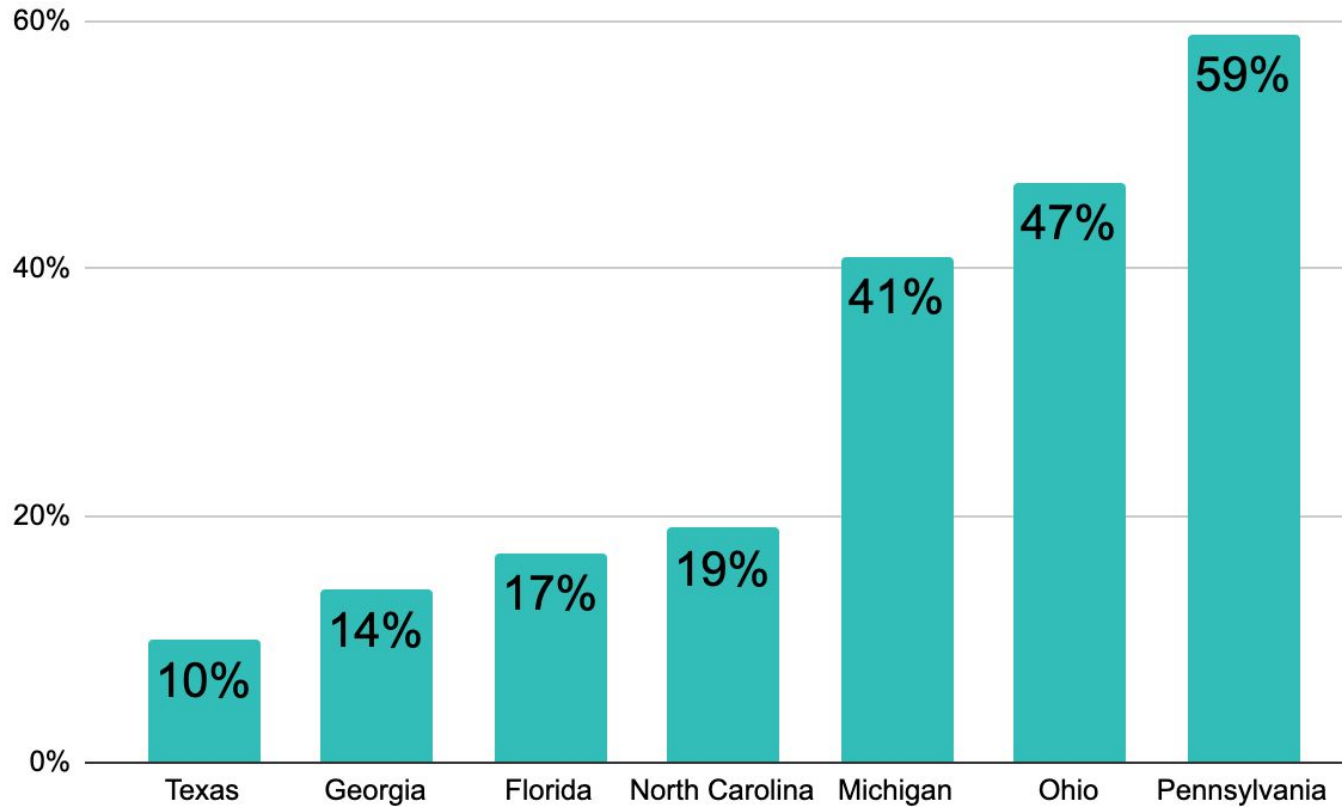

Of those who already voted, Democrats are more likely to make up half of early in-person voters.

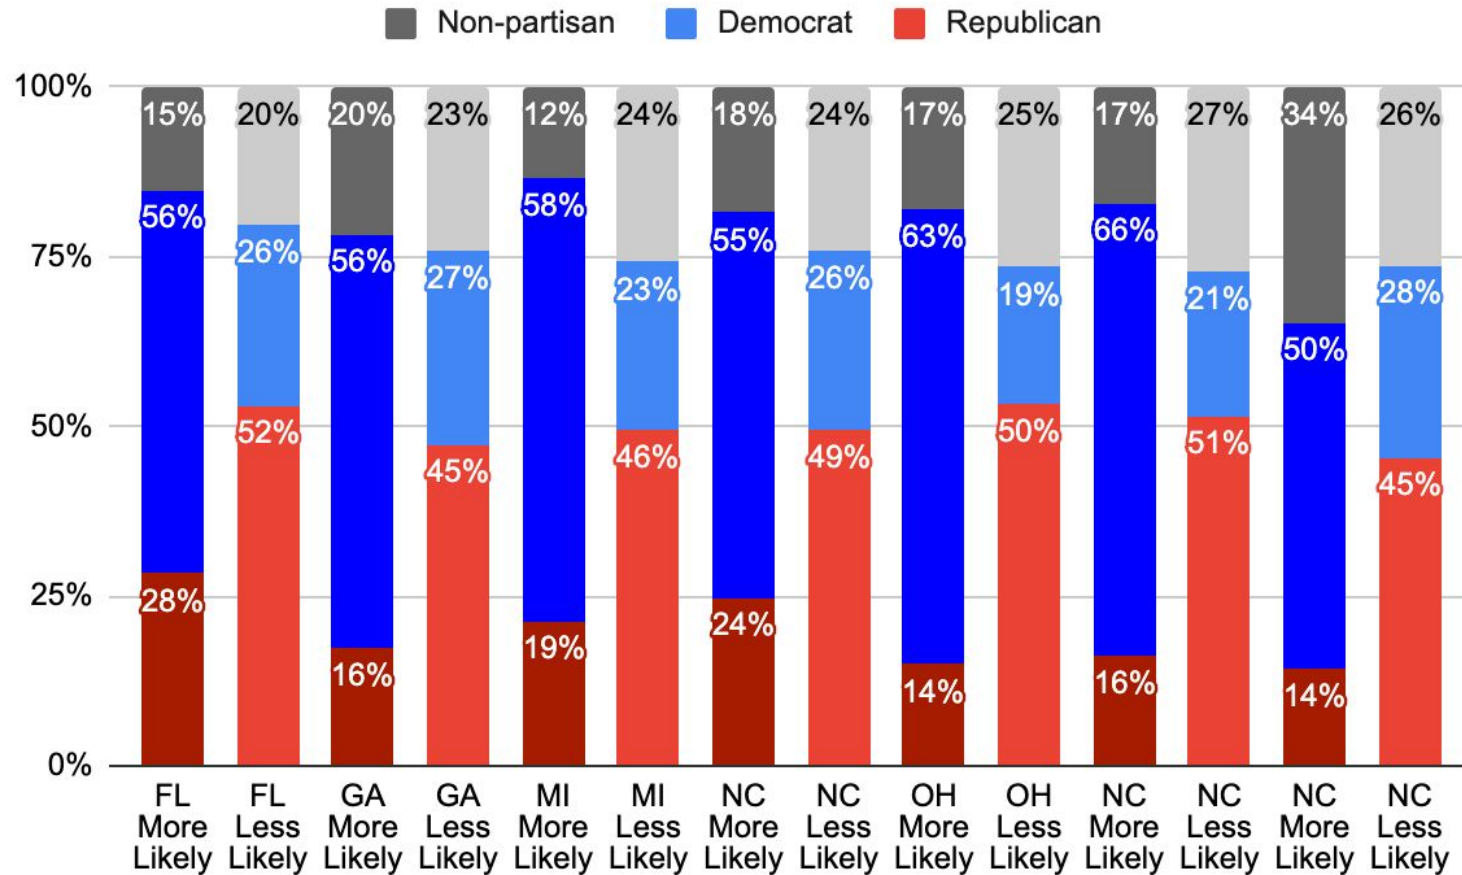

Most battleground states will see fewer than half voting on Election Day, with some much less so.

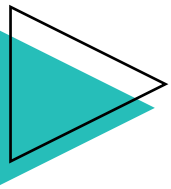

Southern states with extensive early voting have dramatically cut down on their Election Day vote whereas midwest states and PA especially will still likely see a big November 3 turnout.

Across all states, Republicans were more likely to have seen or heard information that that made them less likely to vote by mail.

Half of voters that had seen or heard information about voting by mail that made them more likely to to cast a mail ballot were Democrats, while half of those less likely to vote by mail were Republicans.

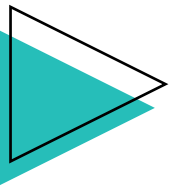

Half of Georgia Voters waited more than 30 minutes, *though about a quarter waited for less than 10 minutes.*

10 minutes or less 10 to 30 minutes 30 minutes to 1 hour 1 hour to 2 hours 2 hours or more

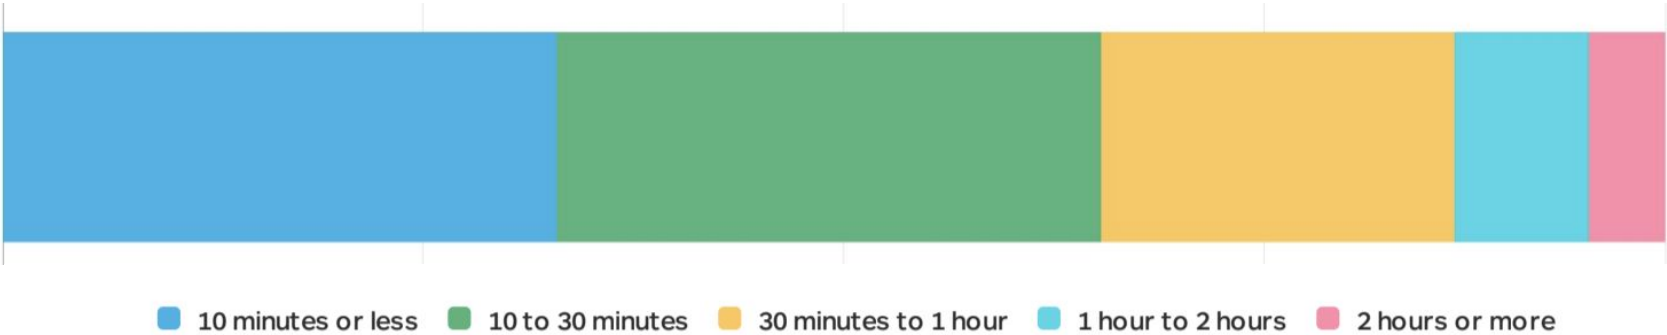

Value	Frequency	Percent
10 minutes or less	50	24.03%
10 to 30 minutes	56	26.87%
30 minutes to 1 hour	41	19.31%
1 hour to 2 hours	34	16.25%
2 hours or more	28	13.55%
Total	210	100%

Among states surveyed, Georgia voters had the greatest proportion of respondents reporting wait times over an hour. Almost 30% of respondents reported waited in line more than an hour.

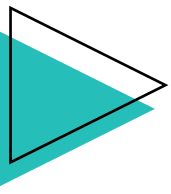

Wait times were lower in North Carolina,

with more than half of early voters waited less than a half hour.

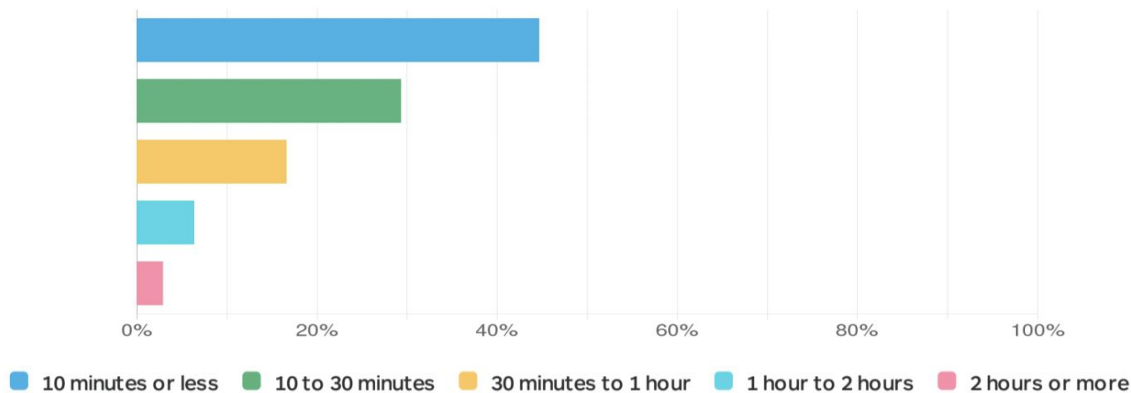

Value	Frequency	Percent
10 minutes or less	58	33.47%
10 to 30 minutes	57	32.96%
30 minutes to 1 hour	37	21.12%
1 hour to 2 hours	14	8.05%
2 hours or more	8	4.4%
Total	174	100%

Still a large percentage of respondents in North Carolina report waiting greater than 30 minutes, but far fewer report waiting over an hour.

Wait times have been lowest in Texas,
with the fewest respondents reporting wait times over 30 minutes.

Value	Frequency	Percent
10 minutes or less	157	44.67%
10 to 30 minutes	103	29.38%
30 minutes to 1 hour	58	16.65%
1 hour to 2 hours	22	6.4%
2 hours or more	10	2.9%
Total	351	100%

Texas respondents report the lowest wait times. The lowest percentage of respondents report wait times over 30 minutes and features the highest percentage of reports under 10 minutes.
